Fruits

STRAWBERRY

Ref: STR-02

Italian name: Fragole

Weight order: 1-2 kg per case

Description: Strawberries are distinguished by their conical heart shape as well as the texture of their skin and their flavor. Strawberries have seeds on the skin rather than skin around the seed, which distinguishes them from a berry and a true fruit. The texture of any given strawberry is tender firm when ripe. It is widely appreciated for its characteristic aroma, bright red color, juicy texture, and sweetness.

Season: from April to July

Serving suggestion: Eat raw with cream or ice cream or sprinkled with a little balsamic vinegar. Add to fruit salads. Use to make jam, tarts or to top puddings.
