Italesse

EASY BUCKET ROUND

Description

Rounded shaped bucket- part of the Easy Line - with the peculiarity of oppositely-

inclined lines of the bowl's superior edge and bottom. This attribute enriches the bottles contained and present them as they would be on a standing supporter. Its external, diamond-cut edge exalts the brilliance and thickness used within. Ideal to show and refresh one bottle of still wines or champagne. The bowl's transparency makes the identification of the exposed bottles (and their label) immediate.

Colours

Black, clear

Materials

Acrylic

Use

For one wine/champagne bottle; also for tins or mini-sized bottles. Alternative use: for fruit or as centrepiece
