RUNNER

Description

Fully made of Oeko-Tex* certified polyvinyl, the new proposals for the indoor and outdoor table are made of the same material of deckchairs, then used to stand sunrays or saltiness. These runners (mm 360x1600) complement the new Liquid Pattern graphic concept together with the glasses, tumblers and jugs of the decorated line. Four wonderful textures that draw inspiration from the countless shapes taken by water in nature. *An international association that certifies the absence of noxious substances in textile products.
